Approval of Corrective Measures Report/Final Remedy
EPA ID# KYD-006-388-797 AI#3143**

The Kentucky Energy and Environment Cabinet (Cabinet), Division of Waste Management (Division) has reached a tentative decision to approve the Corrective Measures Study/Final Remedy for Corning Inc. The project contact is Bill Tolliver who can be reached at [Corning Inc.](#), 680 E. Office Street, Harrodsburg KY 40330 or (859)734-3341.

Why does Corning Inc. need a Final Remedy?

Corning Inc. needs a final remedy for SWMU (Solid Waste Management Unit) 39 and SWMU 40 for the purpose of RCRA (Resource Conservation and Recovery Act) corrective action. Corning will excavate impacted soils from SWMU 39, which is a storm water sinkhole, and dispose of these soils that have most likely been impacted by roofing materials or parking lot runoff. SWMU 40, which is a former waste tank, has had one soil sample taken at 11.5 feet below the surface indicating an elevated level of lead which is below the industrial regulatory action level of 750 mg/Kg. No further action will be taken at this location. These measures have been determined to be protective of human health and the environment.

How can I tell Kentucky Division of Waste Management what I think about this tentative approval?

The Cabinet encourages public involvement and welcomes comments. Anyone wishing to comment on this tentative decision should submit comments to the Cabinet on July 16, 2009, the beginning of the public comment period or before August 17, 2009, the close of the public comments period. Electronic comments should be submitted to Kelly.Neal@ky.gov or mailed to April J. Webb, PE, Manager, Hazardous Waste Branch, Division of Waste Management, 200 Fair Oaks, 2nd Floor, Frankfort, KY 40601, (502) 564-6716, ext. 4699.
